

The Supply Chain Just Got Better™

Complete Handset Protection Program. More CDMA and GSM handsets. Highly accurate repairs. Faster turnaround. New capabilities. More people to serve you.

One year ago, Wireless Works introduced a number of new capabilities to make the wireless supply chain better than ever. It's the only company offering a comprehensive set of wholesale products and services for all types of wireless businesses. Come see what's new and different this year!

Wireless Works relieves all your distribution, forward logistics and reverse logistics headaches, efficiently handling all:

- Outbound Distribution of Devices to Operators and Retailers
- Inbound Flow of Devices for Repair, Reconditioning and Recycling

Choose Wireless Works as your partner and experience outstanding supply-chain performance.

Wireless Works
12550 Reed Road, Suite 300
Sugar Land, TX 77478

Deliver the *right product* at the *right time* and the *right price*.

Attract and retain customers with our end-to-end supply chain solutions that efficiently manage device distribution, repair and recycling.

Ask us how we can help:

- New and refurbished handsets for CDMA and GSM
- Drop-ship fulfillment
- Comprehensive Handset Protection Program
- Handset repairs, in- and out-of-warranty
- Asset recovery and recycling

Schedule a meeting or just stop by to talk to our experts about supply-chain solutions customized to fit your wireless business.
